

Jafar Maksoud

Flutter Developer

✉ jafarmaksoud8@gmail.com | ☎ +963 985 643 418 | 🌐 GitHub | 📁 Portfolio | 🌍 Open to Relocation

Professional Summary

Flutter Developer with a Bachelor's degree in Electronics Engineering specializing in Computer Engineering and Automatic Control and several years of experience developing cross-platform mobile applications with Flutter and Dart. Experienced in Clean Architecture, BLoC/Cubit, Firebase, REST APIs, Dio, local storage, responsive UI, authentication, localization, and form validation. Skilled in Git/GitHub, debugging, performance optimization, Figma-based UI development, and AI-assisted software development for research, coding, debugging, and productivity.

Technical Skills

Languages: Dart, Python

Flutter: Flutter SDK, Responsive UI, Flutter Widgets, Custom UI Components, Cross-Platform Development

Architecture & State Management: Clean Architecture, BLoC, Cubit, Repository Pattern

Backend & APIs: REST APIs, Dio, JSON Parsing, HTTP Requests, PrettyDioLogger

Firebase: Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Cloud Messaging

Data & Storage: Local Storage, Shared Preferences, JSON Data Handling, Environment Variables

UI/UX: Figma, Form Validation, Localization, RTL Support, Responsive Layouts

Tools: Git, GitHub, Visual Studio Code, Android Studio, Android Emulator, Postman, AI Coding Assistants

Selected Projects

Flutter News App | Flutter, Dart, Clean Architecture, Dio, REST API, GitHub

- Developed a cross-platform news application using Flutter and Dart with Clean Architecture, structured data models, and reusable components.
- Integrated REST APIs with Dio, JSON parsing, asynchronous data loading, error handling, pagination, and optimized image loading.
- Used flutter_dotenv for environment variables and PrettyDioLogger for monitoring and debugging HTTP requests and API responses.

Mizan App | Flutter, Dart, Local Storage, Localization, GitHub

- Developed a structured Flutter application with reusable widgets, responsive layouts, organized application layers, and maintainable Dart code.
- Built profile and data-entry interfaces with validation, custom controls, image and location functionality, and dedicated service-layer logic.
- Implemented Arabic/English localization with RTL support and managed the project using Git/GitHub.

Notes Application | Flutter, Dart, Local Storage

- Developed a Flutter notes application with note creation, editing, organization, reusable widgets, form handling, and persistent local storage.

Professional Experience

Flutter Developer

Al-Taj Center for Information Solutions

Latakia, Syria

Sep 2021 – Dec 2024

- Started developing mobile applications with Flutter and Dart and progressively expanded responsibilities across UI development, application logic, state management, API integration, and reusable components.
- Developed and maintained cross-platform application features using Flutter, responsive layouts, forms, asynchronous programming, packages, and structured Dart code.
- Progressively adopted modern Flutter practices through debugging, API communication, state management, package integration, and maintainable application development.

Flutter Developer – Freelance

Client Projects

Remote / Syria

2025 – Present

- Develop and maintain cross-platform mobile applications for clients using Flutter and Dart with scalable architecture and reusable components.
- Implement Clean Architecture, BLoC/Cubit, REST API integration with Dio, Firebase services, JSON handling, authentication, and local data storage.
- Build responsive interfaces from Figma designs with localization, form validation, service-layer functionality, third-party packages, and debugging.
- Use Git/GitHub for source control and AI-assisted development tools for research, coding, debugging, documentation, and productivity.

Education

Bachelor of Science in Electronics Engineering

Computer Engineering & Automatic Control

Latakia, Syria

2015

Certifications & Training

Easy Learn Academy

Flutter Development Diploma

Online

2026

Ecard Academy

Technical Training in Computer Systems & Mobile Device Maintenance

Latakia, Syria

2020
