

JAFAR MAKSOUD

Flutter Developer

✉ jafarmaksoud8@gmail.com | ☎ +963 985 643 418 | 🌐 GitHub | 🌐 Portfolio | 📍 Latakia, Syria

PROFESSIONAL SUMMARY

- Flutter Developer with a Bachelor's degree in Electronics Engineering specializing in Computer Engineering and Automatic Control, bringing solid experience in cross-platform mobile applications with Flutter and Dart.
- Experienced in Clean Architecture, BLoC/Cubit state management, REST APIs, Dio, and local data persistence.
- Skilled in Firebase services, responsive UI development, user authentication, localization, and robust form validation.
- Proficient in Git/GitHub version control, debugging, performance optimization, and AI-assisted software development tools.

TECHNICAL SKILLS

Languages: Dart

Mobile Development: Flutter SDK, Cross-Platform Development, Responsive UI, Custom Widgets & UI Components

Architecture & State Management: Clean Architecture, BLoC, Cubit, Repository Pattern, Separation of Concerns

Backend & APIs: RESTful APIs, Dio, JSON Parsing, HTTP Requests, API Error Handling, PrettyDioLogger

Backend as a Service (BaaS): Firebase Authentication, Cloud Firestore, Firebase Storage, Firebase Cloud Messaging

Data & Storage: Local Storage, Shared Preferences, Environment Variables, JSON Data Handling

UI/UX & Design: Figma, Form Validation, Localization, RTL Support, Responsive Layouts, Material Design

Tools & Version Control: Git, GitHub, VS Code, Android Studio, Android Emulator, Postman

SELECTED PROJECTS

Flutter News App

Flutter, Dart, Clean Architecture, Dio, REST API

- Developed a cross-platform news application using Flutter and Dart with Clean Architecture, structured data models, and reusable components.
- Integrated REST APIs with Dio, JSON parsing, asynchronous data loading, error handling, pagination, and optimized image loading & caching.
- Used `flutter_dotenv` for environment variables and `PrettyDioLogger` for monitoring and debugging HTTP requests and API responses.

Mizan App

Flutter, Dart, Local Storage, Localization, Geolocation

- Developed a structured Flutter application with reusable widgets, responsive layouts, organized application layers, and maintainable Dart code.
- Built profile and data-entry interfaces with validation, custom controls, geolocation functionality, and dedicated service layer logic.
- Implemented Arabic/English localization with RTL support and managed the project using Git/GitHub.

Notes Application

Flutter, Dart, Local Storage, BLoC/Cubit

- Developed a Flutter notes application with full CRUD operations (Create, Read, Update, Delete), note organization, reusable widgets, form handling, and persistent local storage using BLoC/Cubit for state management.

PROFESSIONAL EXPERIENCE

Flutter Developer – Freelance

2025 – Present

Client Projects • Remote / Syria

- Develop and maintain cross-platform mobile applications for clients using Flutter and Dart with scalable architecture and reusable components.
- Implement Clean Architecture, BLoC/Cubit, REST API integration with Dio, Firebase services, JSON handling, authentication, and local data storage.
- Build responsive interfaces from Figma designs with localization, form validation, service-layer functionality, third-party packages, and debugging.
- Use Git/GitHub for source control and AI-assisted development tools for research, coding, debugging, documentation, and productivity.

Flutter Developer

Sep 2021 – Dec 2024

Al-Taj Center for Information Solutions • Latakia, Syria

- Developed and maintained cross-platform mobile applications using Flutter and Dart, focusing on responsive layouts, forms, asynchronous programming, and structured Dart code.
- Progressively expanded responsibilities to include state management, API integration, reusable component design, and debugging.
- Adopted modern Flutter practices to ensure maintainable, scalable, and high-performance application development.

EDUCATION

Bachelor of Science in Electronics Engineering

2015

Computer Engineering & Automatic Control • Tishreen University, Latakia, Syria

CERTIFICATIONS & TRAINING

Flutter Development Diploma

In Progress

Easy Learn Academy (Online)

Technical Training in Computer Systems & Mobile Device Maintenance

2020

Ecard Academy • Latakia, Syria

LANGUAGES

- **Arabic:** Native
- **English:** Professional Working Proficiency
